CASH, WHEN REQUIRED, NOTES ARE HOWEVER TAKEN to accommodate the Insurer in paying his Premiums thus showing the confidence of the Company in its ability to declare Dividends that will eventually CANCEL THE NOTES
How different this is from a Cash Company who exact all Cash under the plea that it is unsafe to grant this indulgence to a policy holder when he is unable to pay his renewal premium
REMEMBER
That the OLD MANHATTAN never assumes or promises Extravagant Dividends to induce insurers to come and insure with them Their Dividends in the past have always been equal to all well managed First class Companies and they can offer the records of the past as an evidence of the future It never vilifies the character of other Companies to accumulate business THE MANHATTAN S records are its best advocates The business of the Company is conducted with

LONDON April 4th —The House of Commons was densely crowded to hear the conclusion of the debate on Gladstone s motion to disestablish the Irish Church The question was on Lord Stanley s motion to postpone the question to next parliament The Prince and Princess of Wales and several members of the Royal family stayed in the royal gallery till the debate closed A vote was reached at half past two this morning A division took place on Stanley s motion to postpone Six hundred members voted and the Government was defeated by sixty majority The announcement was greeted with wild cheers from the Liberals On going into Committee Gladstone s resolutions were carried by a majority of 56 In Committee Gladstone moved his first resolution and that the committee report the progress and the House adjourned at 3 o clock

BERLIN April 4 —The Parliament has adopted by a large majority the resolution declaring that members ought not to be held responsible elsewhere for words spoken in debate

LONDON April 4 —The defeat of the ministry is the chief topic of conversation The Times says the Commons have said that this career of the nation must be reversed and the rejection of Stanley s amendment and the adoption of Gladstone s resolution is merely the first step of the operation The nation will soon to be expressed will be an uncertain sound It would insist that the work so happily begun shall be thoroughly performed This spring s vote is the dawn for a reunited empire Now Ireland may take confidence. She is sustained by a vast balance of opinion of the kingdom The wrongs of ages are to be ended and right done amid the acclamations of the nation. This must guarantee peace

THE CONFLICT —There is a bitter war in the Democratic camp The Chicago Times and New York World desire to conduct the campaign on the tender toe policy while the New York Day Book and La Crosse Democrat believe in the Democracy preaching to the people the true Democratic faith A late number of the Times says

The Democratic party will not assert the right of a State to secede, it will not re establish slavery it will not deprive the negro of his civil rights it will perhaps give him the ballot on necessary conditions, it will pay the national debt according to its terms and to the uttermost farthing

To which the La Crosse Democrat, an outspoken exponent of Democratic principles, responds

This attempt to conceal or modify our principles under the plea of policy, and with the idea that it is necessary to do this to win Republican votes is the sheerest folly, and really suicidal For every Republican vote we shall gain by it if carried out, we should lose ten Democratic votes Ours is the Democratic party Its strength lies in the combined influence of its name and its principles It must be Democratic, wholly Democratic, or it can be nothing To be half Democrat and half Republican, as the Times proposes would bring it only contempt, weakness death To acquire its greatest strength it must take positions which will command the hearty and enthusiastic support of real live Democrats

Then follows arguments in favor of restoring rebels to their lost privileges repudiation of the public debt outrageous assaults upon Thad Stevens General Grant and other loyal civilians and soldiers fulsome praise of Jeff Davis Robert E Lee and other splinters of secession and treason But this is Democracy undisguised—not the sickly hypocrisy practised by some of the deceitful Democratic journals of this State, whose water color showings of their faith are as far from truth as their political souls from tenure of office salvation

THE PRESIDENT AND THE LAW —The Democratic newspapers seem to imagine that the question that the guilt or innocence of the President turns upon the constitutionality of the tenure of office law and though the President's counsel are men of too much intelligence and legal ability to share this view, they have endeavored to mislead the more ignorant, by introducing into their answer to the articles of impeachment a long argument against the constitutionality of the law But the following extract from a statement of Robert J Walker, a Democrat, learned in the law, and a special friend of Mr Johnson, sets the matter in a clear light, and this authority, we presume, the Copperhead press will accept, especially the Dispatch, which has been filling up its paper with the sayings of Mr Walker

I called " says Mr Walker, "upon General Thomas early on Saturday morning, at the War office, and communicated to him in a friendly way my opinion that any such order would be a nullity, and would subject him to serious consequences especially if any such collision should occur I told him that he had no right, nor had the President, to disobey a law of Congress upon the assumption that it was unconstitutional, and that if this were not so the President might set aside all the laws of Congress since the foundation of the Government, upon the ground that they were unconstitutional That the President possessed no such power because it was not an executive, but exclusively a judicial power, and that all the laws of Congress must be obeyed and executed by the President, unless their execution was restrained by the highest judicial authority That to declare a law unconstitutional was not only the exercise of judicial power, but the highest judicial power, and only to be resorted to by the Courts where in their judgment the act was clearly unconstitutional, and that in all doubtful cases the Court had uniformly refused to interfere with the execution of the law "

THE SEVEN WEALTHY DISTRICTS —The personal income returns of the last fiscal year show that there are only seven Congressional districts whose inhabitants return a personal income of over a million and a half of dollars

The Eighth District of New York, which comprises the Eighteenth, Twentieth and Twenty first Wards in the city of New York and is represented in Congress by Hon Jas Brooks pays total personal income tax of $5,394 945 74 This is the largest amount paid by any single district

The Third District of New York which embraces some of the wealthiest wards of Brooklyn and is represented in Congress by Hon Wm E Robinson, pays $1 8472 59 76

First District of Illinois, which embraces Cook County where Chicago is located, and is represented in Congress by Hon Norman B Judd, ranks fifth in the list, paying $1,653 139 94

The Third District of Massachusetts, which is composed of the Fifth, Seventh, Eighth, Tenth Eleventh and Twelfth Wards of the city and Roxbury and Brooklyn, and is represented in Congress by Hon Ginery Twichell, pays $1 558 959 79

The Second Pennsylvania District which comprises the First Seventh Eighth Ninth Tenth and Twenty sixth Wards of Philadelphia, and is represented in Congress by Hon Charles O Neil pays $1,501 812 91

ANOTHER SPEECH BY THE PRESIDENT —The following is from the Washington Chronicle of February 27th

The President yesterday had another occasion to define his position It appears that a delegation of Baltimoreans waited on him for the purpose of presenting certain resolutions relative to the rights of American citizens abroad adopted by a meeting recently held in the Monumental city The Chairman in presenting the resolutions seized the opportunity to implore the President to stand firm in the course he had taken and intimated that the "muscle" of Baltimore would stand by him at all hazards The reply of the President was unusually happy, and besides was strikingly original He said that his faith in the people was surpassed by few and unequalled by none that he had exercised the functions of Alderman in the village where he first saw light that he had fought traitors both North and South and that he had placed his feet firmly upon the Constitution of his country where he intended them to rest for an indefinite period The delegation expressed their thanks to the President for his address and intimated that if he had any orders to be executed they stood ready to obey his commands

A DIFFERENCE OF OPINION —The Chicago Times sharply rebukes the New York World for its sensational statements about public feeling on impeachment The Times says

We beg leave to differ from our contemporary The country is not glowing like a furnace We are not in the midst of a revolution which may be too sanguinary The whole country is at peace so far as the label is meant—and will remain so however may proceed or terminate the combat between Mr Johnson and Congress Impeachment is a last year s almanac—out of date, useless and almost forgotten

Another peaky loyal nigger that persisted in tryin to vote the temperance ticket for town officers at our last elecshun, and was in favor of nigger votin, was nailed by the ears to Bascom's post, and but for the sudden and onwarranted interference of Joe Bigler, who has a sort of Gen. The appearance of Joe however, interruptin further demonstrations, the celebration was brot to a abrupt close.

IMPEACHMENT IRREPRESSIBLE.—The acquiescence of the entire public mind in the impeachment of President Johnson is every day more strongly manifested The New York Times, which at first denounced it, now finds to say

The removal of the President, if it shall be made, will remedy this evil at all events. It will put an end to the conflict of authority and of action between Congress and the Executive. We shall have Congress enacting laws with the concurrence and approval of the President, and we shall have the Executive Department giving the full weight of its influence to their execution This of itself, we do not hesitate to say, will be a very great gain to the country, and will go very far toward remedying the manifold and manifest evils attending so unusual and violent a measure as impeachment Instead of making Congress more extreme and violent in its action, it may, by increasing its sense of responsibility and by removing exasperations to which it has been but too ready to yield, have the effect of inducing a wiser and more judicious course of proceeding on the part of the law making power One thing is very clear—so long as Mr Johnson is President there can be no harmony of feeling and no unity of action between the two departments, upon whose joint action the whole vigor and efficiency of the Government depend The two will be at daggers points so long as the incumbents of both remain. And it is certainly a question whether a year's continuance of such a struggle, in the present crisis of public affairs would not involve more practical evil and do more serious injury to public interests and the public welfare, than would follow the application of the remedy that is proposed

Some of the newspapers are reproducing portions of Johnson s speeches, made while he was on his famous tour of swinging round the circle. These gems are reset in the indictment brought against the President by the House of Representatives and were read in the document presented by the House Managers to the Senate. One can imagine the smile that must have irradiated Thad Stevens' saturnine face as he listened to the solemn reading of such an extract as this .

I have been traduced, I have been slandered, I have been maligned I have been called Judas Iscariot and all that. Now my countrymen, here to night it is very easy to indulge in epithets; it is easy to call a man Judas and cry out 'traitor,' but when called upon to give arguments and facts he is very often found wanting Judas Iscariot! Judas! There was a Judas and he was one of the twelve apostles Oh, yes, the twelve apostles had a Christ and he never could have had a Judas unless he had had twelve apostles If I have been a Judas, who has been my Christ that I have played Judas with? Was it Thad. Stevens? Was it Wendell Phillips? Was it Chas. Sumner? These are the men who stop and compare themselves with the Savior, and everybody that differs with them in opinion and who tries to stay and arrest their diabolical and nefarious policy is to be denounced as a Judas Well, let me say to you if you will stand by me in this action, if you will stand by me in trying to give the people a fair chance soldiers and citizens, to participate in these offices God being willing, I will kick them out —I will kick them out just as fast as I can

The Columbus (Ohio) Crisis, an organ of the Vallandigham Democracy has taken a hand in the war between the New York World and Vallandigham and denounces the World as a journal conducted on the Iscariot principle as a paper "created to advance the interests of any army thief as a paper "run upon an anomalous combination of blood money and Puritan ideas as a paper whose owners were convicted of swindling in government contracts as a mercenary sheet, unworthy the confidence or respect of anybody but sutlers and campfollowers These respective sheets ought to know each other

Stanbery has resigned to conduct Johnson s defense Andy has accepted the resignation—the understanding being that if Johnson is acquitted, Stanbery will get his office back If he is found guilty and removed the retention of the Attorney Generalship for a few weeks longer would be of no value Stanbery therefore sacrifices nothing by his resignation and while defending Johnson is working for his own continuance in office.

Some Plain Statements

It is notorious that during the whole period of the rebellion, the Democratic party was practically a secession party. It is notorious that a Democratic Administration allowed secession to be consummated, and instead of taking measures to defeat it, gave direct license to the seceders to proceed with the dismemberment of the Union. These facts are part of the history of the country, and no attempt to falsify that history can change or obliterate them. Though the Democratic party all that time professed to be in favor of maintaining the Union, they bitterly opposed the only policy by which the Union could be preserved, viz: The suppression of the rebellion by force of arms. The Chicago platform of 1864 declared in two different resolutions for the preservation of the Union, but the effect of these declarations was entirely neutralized and destroyed by another resolve, demanding the immediate abandonment of the war against the rebels. Their strenuous opposition to the prosecution of the war from the beginning to the end of the conflict, made the Democratic party practically, a secession party. This was apparent to all loyal men at the time, and the history of the struggle confirms and will forever confirm, this fact, however disagreeable it may be to those who made so odious a record during the years of the nation's agony.

We have something to say to the *Herald* on this subject, and shall endeavor to adapt our remarks to the understanding of the editor of that paper. He can see no distinction between the resolution lately adopted by the "Democratic" Convention of this State declaring it to be the highest duty of every citizen to maintain the Constitution and the Union "against all their enemies," and the quasi Union resolutions adopted by his party in 1864. He says his party pronounced as emphatically for the Union then as now. Let us see. Let the circumstances be considered. In 1864, the nation was engaged in a life and death struggle. Its only hope was to defeat, subdue and disarm its traitorous enemies. The rebels would have no terms short of separation. President Lincoln submitted a proposition to them for an adjustment on the basis of the restoration of the authority of the Government throughout all the States, which was directly refused by Jeff. Davis, who declared that he would not have peace "on the basis of unconditional submission." It was necessary, therefore, for the war to go on, or to accept the dissolution of the Union. The National Democratic Convention assembled at Chicago, and though it declared that the party would adhere to the Union, it said that the war, the only hope for the salvation of the Union, should not go on. Then was the time for the party to have proclaimed that the Constitution and the Union must be maintained "against all their enemies." For the "enemies" of the Union were then in arms against constitutional authority, the nation was in deadly peril, and no man could tell what the result would be. But at that time the Democratic party had no word of reproach for those who were in arms against the Constitution and the Union. It did not call those men "enemies." The use of such a term at that time would have committed the party to the support of the war. For every citizen is bound to support his Government against its enemies. Therefore they would have suffered martyrdom rather than pass a resolve like the one they have now adopted. But when the conflict is ended and the Union is restored, or in progress of restoration, they can adopt a bold resolution against the "enemies" of the Constitution and the Union. Is the *Herald* able to see the distinction now? Or shall we illustrate it further by extracts from the paper its editor published in 1864? If he wants to keep the slivers out of his legs, he would do well to walk a little more carefully.

One thing more. A short time since we made the following statement:

> Negro suffrage may continue in the South just as long as the white people desire it, and no longer. It is adopted as a temporary measure for the restoration of those States to the Union, and need not be permanent unless the whites will it. After they are restored to their relations with the Union, they can settle the suffrage question as they please, subject to the fourteenth amendment to the Constitution. If they do not want the negroes to vote, all right; in that case they shall not have representation for them in Congress or in the Electoral College.

The comments of the *Herald* are as follows:

> Every school boy who knows any thing of the reconstruction acts of Congress, knows that there is not a word of truth in the above statement. The declared purpose of the authors of the reconstruction measures was to secure the right of suffrage without distinction of race or color forever. The Radical party have repeatedly declared the policy of admitting no State into the Union, the Constitution of which did not contain this provision. The Constitutions of Nebraska and Colorado were both sent back to the people to have a clause securing negro suffrage adopted as a condition of admission.

This assertion that the "declared purpose of the reconstruction acts was to secure the right of suffrage without distinction of race and color forever," is made in the face of the fact that the fourteenth amendment to the Constitution, which is the basis of the plan of reconstruction, and which the rebel States are expressly required to adopt before they can resume their relations with the Union, provides in direct terms for negro disfranchisement by reducing representation proportionately. It is made, too, in the face of the recent action of Congress, declaring expressly that the Southern States may, after their restoration, regulate the exercise of the suffrage as they may see fit. If the editor of the *Herald* will turn back to his issue of March 28, only a week ago, he will find it stated in the telegraphic report that when the bill was introduced in Congress to admit Alabama, a section was reported providing that that State should never amend her Constitution so as to deprive any citizen of the right to vote. Now let him turn to his issue of March 31, and he will find it stated that this section was *voted down* by a vote of 74 to 33, on the ground that it was "the right of the people to amend their State Constitution, subject only to the Federal Constitution, and they could not be deprived of that right." Has the *Herald* editor penetration enough to understand this plain statement of recorded facts? It is clear that it would be greatly to his advantage to take instruction from some "school-boy who knows something of the reconstruction acts." Here is the sum of this whole matter. Negro suffrage was enacted in the South as a reconstruction measure. It may be permanent or not, just as the whites may desire. After those States are restored, they may regulate the suffrage for themselves. The whites outnumber the blacks at the rate of two to one, and will therefore have the matter in their own hands. If they are willing to have their representation in Congress reduced, they can disfranchise the blacks. The fourteenth amendment so declares, and Congress reiterates it. In the case of Nebraska, (Colorado has not been admitted) the same doctrine will apply. That State, before its admission gave its assent to impartial suffrage, but it may now amend its Constitution, subject only to the Constitution of the United States, whenever it desires. We trust we have made these things plain to the *Herald*, but we do not expect that paper to stop its misrepresentations of even the most obvious and undoubted facts.

Gov. Woods at the East.

We have a letter from H. H. Hall of Portsmouth, New Hampshire, formerly for several years a resident of Oregon, giving an account of the reception of Gov. Woods in that State and his able efforts in behalf of the Union cause in the late canvass. The writer says: "I speak the sentiments of the people of New Hampshire when I say that very seldom, and never during this campaign, have we listened to such an effective speech as that delivered by Gov. Woods at this place. When I say this I know I repeat the opinion of the people of the whole State, and the numerous notices of the press fully confirm them. The attention of the whole country seems to be drawn to the old Granite State as she leads off in the contest of 1868 and the result is as I to be waited for with intense interest from Maine to Oregon." The letter closes with a short extract from the Portsmouth *Chronicle*, which we republish:

Gov. Woods spoke in this city for about three hours, which won him a host of admirers. His arguments were perfectly conclusive, and he made many telling hits in his happy style of anecdote, which produced great applause. His presence here shows the great interest that is felt in our election throughout the length and breadth of the land. The Governor has addressed large audiences all over the State, and the people of New Hampshire are under the highest obligations to him. We must say that Gov. Woods is the most eloquent and effective speaker we have had with us for a long time.

UMATILLA COUNTY.—A correspondent at Umatilla City sends us an account of an enthusiastic Union meeting which took place there last Tuesday. Col. Preston, of Idaho, and Baker of La Grande, delivered speeches on the occasion. The latter "dwelt particularly on the professional and political record of Rev. J. S. Smith." Preston's speech is spoken of as a very able one. "The Union party is at work in Umatilla county, and will give a good account of itself in June and November."

The Jacksonville *Sentinel*, speaking of the nominations made by the Union State Convention says: "We want no better ticket. The Union party of this State are confident of another victory, and are going in to win."

A Bit of History

HOW GENS. LEE AND JOHNSON LEFT THE U. S. ARMY—THE DOUBLE TREACHERY OF THE REBEL MILITARY LEADER.

Senator Simon Cameron, of Pennsylvania, made an interesting statement in the Senate last month in relation to the circumstances under which Generals Lee and Johnson entered the Confederate service. It will be remembered that Mr. Cameron was Secretary of War at the breaking out of the rebellion. In the course of debate he was asked why he did not arrest these two officers and prevent their desertion, and in his answer he makes the statement alluded to. Of General Johnson, who at the time of his desertion was Quartermaster General, he says:

General Johnson was, as the Senator from Maryland says, a most valuable officer. Officers of the army were resigning or running away daily, almost hourly. The largest portion of the men who were considered the most valuable had left the service. The Secretary of War at that day was told that this gentleman was going to leave the service because he believed that he was suspected by the Administration of not being faithful. He was sent for by the Secretary of War, who said to him that he had entire confidence in his ability and integrity, and begged that he would not leave the service with any wrong impression. He immediately said to me that he regretted that he had decided to leave; that this rebellion was wrong; that everybody engaged in it was acting improperly and unfaithful to the Government, and that he never intended to take part against the Government. But he said he was controlled by influences which he could not counteract; that he was compelled to resign. I believed at the time the influences referred to were those of his wife's family; but I have been told since that that was not so. At all events I should have arrested him, if I had not sent for him into my room, and in some measure got him to commit himself to me. I have always regretted that I did send for him, and that I did not wait until he had committed the overt act, and then arrested him.

These facts are very interesting. But the most important revelation was that concerning General Lee, who, as our readers know, was Gen. Scott's Chief of Staff at the time referred to:

"Gen. Lee called on a gentleman who had my entire confidence, and intimated that he would like to have command of the army. He assured that gentleman, who was a man in the confidence of the Administration, of his entire loyalty and his devotion to the interests of the Administration and of the country. I consulted with Gen. Scott, and Gen. Scott approved of placing him at the head of the army. The place was offered to him unofficially, with my approbation, and with the approbation of Gen. Scott. It was accepted by him verbally, with the promise that he would go into Virginia and settle his business and then come back to take command. He never gave us an opportunity to arrest him; he deserted under false pretenses. I should have arrested him in a moment if I had had a chance at him, and I have always regretted that I never did get that chance."

This statement shows more completely than was ever demonstrated before the perfidy of General Lee in deserting the Union army. It seems that he was under verbal agreement to accept the active command of the Union army, which had been verbally tendered to him. Under these circumstances, his abandonment of the Federal army was, if possible, a double treachery. To be sure, Mr. Cameron had no direct interview with Gen. Lee himself, but that the matter was one of importance, and received much consideration from both parties is shown by the circumstances.

"Democrats Won't Celebrate under the Flag."

The following article was published in the *Oregon Statesman* three or four years ago, by Stephen Staats of Polk county. We are informed that Staats, some time ago, went over to the Democratic party, and is now in political affiliation with those who, as he says, "won't celebrate under the flag." We think the man is "to be pitied—pitied that he has become so lost to all sense of patriotism," that he is in political accord with those who, as he tells us, but a little while ago, were "unwilling to do honor to the emblem of our nationality."

MONMOUTH, Polk county.

EDITOR STATESMAN: All men should take notice of the progress of political parties in these days of our nation's trial; all men should weigh well the principles actuating those parties; all men, when called upon to give countenance or support to political organizations, should be well assured before they act, that the principles and tendencies of the party with which they intend to operate have for their object the best interests of the community and the welfare of our country; that they are actuated, not by a controlling desire for office and power, but by a deep solicitude to advance our country's interests in her progress towards freedom, civilization and unity. Now, what could be thought of a party that would assemble on the Fourth day of July—that day ever memorable in the mind of an American citizen—pretending to celebrate our nation's birth and rejoicing over the glorious events of that day, at the same time refuse to spread to the breeze the bright folds of our country's flag? that flag without which, and the memories and recollections connected with it, the Fourth day of July would have no significance. A party did so assemble on the last Anniversary of our National Independence at Butte Disappointment in Lane county. A person passing by stopped awhile, and during a conversation he had with an acquaintance, inquired: "Why don't you have up a flag?" and, for a reply, received: "O this is a Democratic meeting; we are all Democrats here; there ain't a Republican amongst us; they won't let us have a Democratic flag, and so we wouldn't have any." Now, if this meeting was a true representative and exponent of the views, feelings, and principles of the Democratic party, they are to be pitied—pitied that they have become so lost to all sense of patriotism, that they are unwilling to do honor to the emblem of our nationality.

STEPHEN STAATS.

A gentleman was once arguing with a Scotch lady, when at length he stopped: "I tell you that, madam," said he, "I'll not argue with you any longer; you're not open to conviction." "Not open to conviction, sir!" was the indignant reply. "I scorn the imputation, sir. I am open to conviction. But," she added, after a moment's pause, "show me the man that can convince me."

The Democrats of Philadelphia have placed at the head of their delegation to the National Convention, Alderman McMullen. Whereupon the New York *Tribune* says:

"This is a very worthy selection. Mr. McMullen has been distinguished in public life. He was the referee in the celebrated prize fight between Collyer and Barney Aaron at Acquia creek, and we have a recollection that he promised on that occasion, to mash the head of anybody who should put his name in the papers. At the risk of having our head mashed, we venture to chronicle his new appointment, and for further particulars refer persons curious in biography to Capt. Mills of the New York Metropolitan Police."

PREPARING FOR THE CAMPAIGN.—There will be a meeting of the Spartan B. B. Club this evening at the office of E. E. Bybee for the purpose of electing officers for the ensuing year.

RUNAWAYS.—There were several runaways of teams, on Saturday, with smashing finales.

DIRECT IMPORTATIONS.—Nothing is more clear than that the merchants who import their goods direct from the great Eastern markets, can, and generally do, sell lower than those who buy at San Francisco. L. White & Co. have just filled up a large store room with the choicest assortments of dry goods, purchased in New York and Boston for *cash*, and they are, therefore, prepared to defy competition. See their advertisement.

TAILORS WANTED.—Six A 1 Coat, Pants, and Vest Makers can find ready employment by calling on W. King, Superintendent of the tailoring department, at Harman Bros., corner Front and Morrison streets.

P. S.—None but the very best of workmen need apply, as the highest prices are paid.

THE PLACE TO BUY CLOTHING.—After pretty general inquiry, we are satisfied that there is no better place in this city to buy ready made clothing than at Kohn & Fishel's. They sell good articles at fair prices, on the principle of "live and let live." Give them a call.

LADIES!—Please call in to-day and examine the new stock of goods just received at Mrs. Levy's, consisting of the finest spring styles of dress goods, all the latest and most fashionable styles of trimmings, &c.

HOSTETTER'S
CELEBRATED STOMACH BITTERS!
A Pure and Powerful Tonic,
Corrective and Alterative, of wonderful efficacy in Diseases of the
STOMACH, LIVER AND BOWELS.
PROTECTIVE PROPERTIES.
Prevents Fever and Ague and Billious Remittent Fevers; Fortifies the System against Miasma and the evil effects of unwholesome water; invigorates the organs of digestion and the bowels;
Steadies the Nerves and tends to Prolong Life.
REMEDIAL PROPERTIES.
Cures Dyspepsia, Liver Complaint, Sick and Nervous Headache, General Debility, Nervousness, Depression of Spirits, Constipation, Colic, Intermittent Fevers, Sea Sickness, Cramps and Spasms, and all complaints of either sex arising from Bodily Weakness, whether inherent in the system or
PRODUCED BY SPECIAL CAUSES.

NOTHING THAT IS NOT WHOLESOME, GENIAL, and restorative in its nature, enters into the composition of HOSTETTER'S STOMACH BITTERS. This popular preparation contains no mineral of any kind; no deadly botanical element; no fiery excitant; but is a combination of the extracts of rare balsamic herbs and plants, with the purest and mildest of all diffusive stimulants.

The weak stomach is rapidly invigorated, and the appetite restored by this Tonic, and hence it works wonders in cases of Dyspepsia, and in less confirmed forms of Indigestion. Acting as a gentle and painless aprient, as well as upon the liver, it also invariably relieves the Constipation superinduced by irregular action of the digestive and secretive organs.

Persons of feeble habit, liable to Nervous Attacks, Lowness of Spirits, and Fits of Languor, find prompt and permanent relief from the Bitters. The testimony on this point is conclusive, and from both sexes.

As a Genuine Tonic, HOSTETTER'S BITTERS produce effects which must be experienced or witnessed before they can be fully appreciated. In cases of Constitutional Weakness, Premature Decay, and Debility and Decrepitude arising from old age, it exercises the electric influence. In the convalescent stages of all diseases it operates as a delightful invigorant. When the powers of nature are relaxed, it operates to re-enforce and re-establish them.

Last, but not least, it is the only safe stimulant, being manufactured from sound and innocuous materials, and entirely free from the acrid elements present more or less in all the ordinary tonics and stomachics of the day.

G. VENARD,
CHARTRES COFFEE!
Manufactory Established in June, 1851.
STEAM POWER, NOS. 625 AND 627 FRONT ST.

HAS CONSTANTLY ON HAND GROUND AND ROASTED COFFEE, GREEN COFFEE of the best qualities. CREAM OF TARTAR and SPICES of all sorts.

The undersigned, who has always enjoyed public confidence for the excellent quality of his Coffee, neglects nothing to justify the good name acquired by his productions, the sale of which daily increases. The acknowledged superiority of his merchandise, which commands here, and in the markets of the interior, a relatively higher price, excites the cupidity of some manufacturers, and every day he sees increasing the number of those who, by counterfeit or imitation of his mark, seek to deceive the public, palming upon them their inferior productions for the genuine G. VENARD CHARTRES COFFEE. This fraud can deceive nobody after a trial, but only adds to the favorable opinion of the consumers, the very flattering though unwilling testimony of the counterfeiters. Nevertheless, buyers should be forewarned, and put on their guard against this practice.
BEWARE OF COUNTERFEITS.
Each package bears the signature of G. VENARD.

Three Songs.

Sing me, thou Singer, a song of gold!
Said a care-worn man to me,
So I sang of the golden summer days,
And the sad, sweet autumn's yellow haze,
Till his heart grew soft, and his mellowed gaze
Was a kindly sight to see.

Sing me, dear Singer, a song of love!
A fair girl asked of me,
Then I sang of a love that clasps the Race,
Gives all, asks naught—till her kindled face
Was radiant with the starry grace
Of blessed Charity.

Sing me, O Singer a song of life!
Cried an eager youth to me,
And I sang of life without alloy
Beyond our years, till the heart of the boy
Caught the golden beauty, and love and joy
Of the great Eternity.

Poor Train will hardly know his city when he returns to it. The Omahas seem to have seized the occasion of his absence to choose a Republican city government.

On reading General Geo. H. Thomas' dispatch declining the appointment of Brevet-General, Grant remarked: "Just what I expected from Thomas. He is a good soldier."

A man in Auburn, Me., put his two hundred hens in a hot house, and the unsuspecting hens, deluded into the belief that it was summer, and the season for business, literally overflowed with eggs.

It is expected that Bates, the Northern dough-face, to whom the Kuklux Klans down South are taking so kindly in his flag feat, will make about $10,000 from contributions tendered him in the starving South.

Dickens' man Dolby, in a late match to walk six miles and back, gave hout at the height mile that he'd 'ave an 'ors and buggy to get 'ome. Mr. O[illegible], his competitor, walked the last six miles in seventy minutes.

Worcester, Mass., is by no means a large town, but it has 95 public schools, attended by nearly 8,000 children. There are also about a dozen private schools. More than one-half the children born in the city last year were of foreign parents.

A Louisville paper says the girls of the Blue Grass region consider it a breach of hospitality to refuse an offer of marriage. It instances the case of a young lady who was engaged to fifty officers, from second lieutenant to brigadier, while Gillmore was in those parts, and was finally married to a farmer.

A man, who was a great stickler for etiquette, having married a widow before her time of mourning had expired, soon after made his appearance with a weed in his hat. On being spoken to on such singular conduct, he remarked that he considered it no more than the handsome thing to his lamented predecessor.

Dr. Bellows, who is now traveling in Europe, is delighted at Venice. He declares it to be "the most picturesque and romantic city in Europe. What swans are among fowls Venice is among cities—white, graceful, web-footed, melancholy, lonely, and princely. The sunsets there are [illegible] the pictures sunsets!"

There are twenty-nine shoe factories in Marlborough, Mass., giving employment to 1,268 men and boys and 368 women; 143,729 pair of boots, and 2,860,871 pairs of shoes were made last year. The savings bank deposites have increased $73,-220 during the year. The town has a population of about 6,800, living in 952 houses, including 35 built within the year.

A Matteawan correspondent of the Fishkill Journal says that Mr. R. D. Hine, a resident of that place, has by intricate labor, solved the long-sought problem to combine wool and fur in equal quantities so as to produce a hat which shall have the durability of wool and the glossy appearance of fur, thereby making a neat, cheap, and durable hat.

Johnson's supporters are all pretty much like the man in Chicago, who, the other day, championed his master in this wise, as told by the Post. "I fought four years for the Constitution, and by ——! I am willing to fight for Johnson now!" said a bummer on the street, the other day. "Under whom did you serve?" asked a by-stander. "Why, under General Lee, by ——!" was the reply.

A well of Naptha has been discovered at Ku[illegible], in the Caucasus, by boring. At the depth of 274 feet from the surface the liquid was first struck, and for a whole month gave a supply of 1,500 barrels daily. Since then a fresh source has been met, which rises with irresistible force to the hight of forty feet above the ground, the jet being four inches in diameter, and delivering a daily supply of 5,000 barrels.

Elevated Street Railways.

[From the N. Y. Sun.]

Gen. Barnum, of Oregon, has in a pamphlet submitted his plans for the construction of elevated railways, parcel express and pneumatic despatch. He predicts that elevated railways, properly constructed upon corrugated or grooved wrought-iron columns, occupying no more space than is at present taken up by lamp-posts, awning-posts, and telegraph poles, will be the city railway of the future, which will be [illegible] to all others, and offer the safest, quickest and cheapest means of transportation for the thousands who must daily pass up and down Manhattan Island. Already the horse railroads miserably fail to give the traveling public adequate accommodation, or even decent convenience; and it is asserted that an underground or tunnel railway cannot be built in less than ten years from Bowling Green to Harlem, while four elevated railways could be erected within one year.

The peculiar features of the plan proposed by Gen. Barnum are as follows:

Ingress to the cars obtained only by stairways leading to depots or waiting rooms in the second story front rooms of buildings adjacent to the railway; these depots, located as frequently as one in every eighth or tenth block, may be multiplied as increase of travel and the demand of the public shall require; the stairways will be always within the buildings, not exposed to storm or sun as in all other elevated railway plans, and will be direct from the sidewalk and easy of access. No collection of fares upon the cars, but this duty performed at entrance of waiting rooms, by this arrangement we claim to get rid of almost all annoyances arising from this source on other cars and to entirely exclude car-thieves and drunken persons, there being no other way for entering or leaving a car but through the stations; a [illegible] can also be arranged for different [illegible]; and regularity in running and stopping all cars can be effected, as stops will only be made when by signals it is indicated there are persons in waiting to take seats. At the front of each station or waiting room, to be built a light but substantial balcony over the sidewalk, across which passengers will enter and leave the cars; these balconies, being on a level with the car floors, will have railings at either side, and a car at rest will form a perfect enclosure at front; as soon as any car has left a station the person in charge can close the doors leading to the balcony, and thus all persons gathering in a waiting room can only make their exit when the next car has arrived and stands opposite the platform.

Reception of the New Hampshire Election News at Washington.—The Republicans in Washington were greatly elated by the victory in New Hampshire. It has forced the timid men of the party to admit that boldness is the best policy, and seals the fate of the President on the impeachment trial. Means will be immediately adopted for an energetic campaign in Connecticut, which it is believed will recover that State from the Democracy.

Extensive preparations had been made by the Democracy for celebrating their expected victory. Powder had been purchased to be used in firing salutes, bands of music were engaged to serenade leading Democrats and the President. While the Cabinet was in session to-day (March 11), Col. Florence received a dispatch from New Hampshire, announcing that the State had hopelessly gone for the Republicans. He hurried to the White House and disturbed the Cabinet meeting with the announcement, whereupon the Cabinet adjourned.

General Grant on Reconstruction.—The documents sent to the Senate by General Grant, in reply to a resolution of that body, contained the following telegram:

Washington, August 3, 1867.

To Major General Pope:

I think your views sound, both in the construction which you give to the laws of Congress and the duties of the supporters of good government. To see that when reconstruction is effected that no loophole is left open to give trouble and embarrassment thereafter, it is certainly the duty of the District commanders to study what the framers of the reconstruction laws wanted to express as much as what they do express, and to execute the laws according to that interpretation. This, I believe, they have generally done, and so far have the approval of all who approved the Congressional plan of reconstruction. U. S. GRANT, General.

The Heroic Russell.—Mr. John Y. Foster has been writing the history of the part New Jersey bore in the late struggle. In a footnote to his description of the first battle of Bull Run, he gives a new story about Mr. Wm. H. Russell, who furnished the London *Times* with such an exaggerated account of the panic on that famous occasion. He says:

General McAllister (of the First New Jersey brigade) gives the following amusing account of the manner in which Wm. H. Russell, of the London *Times*, fled from the field. He says:

"A civilian, with a broad brimmed hat, his face pale as death, came riding down the road at a furious rate. I ordered him to halt. He, very much agitated and frightened, said, 'I am a civilian, and must pass on.' 'No, you can't pass,' I replied, 'my orders are to stop everybody.' He then said, 'I am a bearer of dispatches to Washington, and it is imperative that I should go on.'

"You cannot pass until this panic is stopped; every one who passes helps to increase the stampede," was my answer.

"Here are my papers—look at them," at the same time pulling them out of his pocket.

I replied: "No time to examine papers now; wait till we are through with this job and we will consider your case."

He again implored me in pitiful tones, to let him through, whereupon I said."

"There is my commander, go to him," pointing to Colonel Montgomery. He went to the colonel, and had some conversation with him, when Montgomery disgusted with the man's cowardice, raising himself up in the saddle, cried at the top of his voice: "Let that man go!" I did so, when the stranger put spurs to his horse, and made the very stones of the pike fly behind him. That man was no other than Russell, the correspondent of the London *Times*.

Private letters received from Chicago state that Mrs. Lincoln is insane beyond all doubt. She recently sold all the furniture in her house and has two old men as body-guard, believing she will be robbed and murdered. Her mania is for selling, and a dread lest she come to want.

UNION COUNTY CONVENTION.

A Union Convention for Multnomah county, will be held at the Court House, in the city of Portland, on Saturday, April 25th, 1868, commencing at the hour of ten o'clock in the forenoon of that day, for the purpose of nominating four Representatives in the State Legislature and County officers for said county.

SOOTHING AND BRACING.—There is no preparation in existence which has such a soothing effect in cases of nervous excitement as

DR. HOSTETTER'S STOMACH BITTERS.

Although the fame of this renowned invigorant rests mainly on its astonishing cures of Dyspepsia, Liver Complaint and intestinal disorders, it is equally efficacious in nervous complaints. Thousands of ladies resort to it as a remedy for hysteria, fluttering of the heart, nervous headache, vertigo, general debility and all peculiar disturbances and derangements to which, as a sex, they are subject. It cheers and lightens the depressed mental powers as well as strengthens the body, and its use is never followed by any unpleasant reaction. Sold by all Druggists and dealers everywhere.

525 MILES
OF THE
UNION PACIFIC RAILOAD!
Running West from Omaha
ACROSS THE CONTINENT,
ARE NOW COMPLETED.

This brings the line to the eastern base of the Rocky Mountains, and it is expected that the track will be laid thirty miles further, to Evans Pass, the highest point on the road, by January. The maximum grade from the foot of the mountains to the summit is but eighty feet to the mile, while that of many eastern roads is over one hundred. Work in the rock-cuttings on the western slope will continue through the winter, and there is now no reason to doubt that the entire grand line to the Pacific will be open for business in 1870.

The means provided for the construction of this Great National Work are ample. The United States grants its Six Per Cent. Bonds at the rate of from $16,000 to $48,000 per mile, for which it takes a *second lien* as security, and receives payment to a large if not to the full extent of its claim in services. These bonds are issued as each twenty mile section is finished, and after it has been examined by the United States Commissioners and pronounced to be in all respects a first-class road, thoroughly supplied with depots, repair-shops, stations, and all the necessary rolling stock and other equipments.

The United States also makes a donation of 12,800 acres of land to the mile, which will be a source of large revenue to the Company. Much of this land in the Platte Valley is among the most fertile in the world, and other large portions are covered with heavy pine forests and abound in coal of the best quality.

The Company is also authorized to issue its own First Mortgage Bonds to an amount equal to the issue of the Government and no more. Hon. E. D. Morgan and Hon. Oakes Ames are Trustees for the Bondholders, and deliver the bonds to the Company only as the work progresses, so that they always represent an actual and productive value.

The authorized capital of the Company is One Hundred Million Dollars, of which over five millions have been paid in upon the work already done.

EARNINGS OF THE COMPANY.

At present, the profits of the Company are derived only from its local traffic, but this is already much more than sufficient to pay the interest on all the Bonds the Company can issue, if not another mile were built. It is not doubted that when the road is completed the through traffic of the only line connecting the Atlantic and Pacific States will be large beyond precedent, and, as there will be no competition, it can always be done at profitable rates.

It will be noticed that the Union Pacific Railroad is, in fact, a *Government Work*, built under the supervision of Government officers, and to a large extent with Government money, and that its bonds are issued under Government direction. It is believed that no similar security is so carefully guarded, and certainly no other is based upon a larger or more valuable property. As the Company's

FIRST MORTGAGE BONDS

are offered for the present AT PAR IN U. S. CURRENCY, they are the cheapest security in the market, being more than 15 per cent. lower than U. S. Stocks. They pay

SIX PER CENT. IN GOLD,

or over NINE PER CENT. upon the investment. Subscriptions will be received in Portland by

FIRST NATIONAL BANK

and in New York at the Company's Office, No. 20 Nassau street, and by

and by the Company's advertised Agents throughout the United States. Remittances should be made in drafts or other funds par in New York, and the bonds will be sent free of charge by return express.

A NEW PAMPHLET AND MAP, showing the Progress of the Work, Resources for Construction, and Value of Bonds, may be obtained at the Company's Offices or of its advertised Agents, or will be sent free on application.

H. W. SHIPLEY & CO.,
MANUFACTURERS OF
SHIPLEY'S PATENT PACIFIC
TURBINE WATER WHEEL!

Of which the above is an illustration, has four sets of buckets, and uses three-fourths of the water twice.

The old high-priced, unequalled and unrivalled wheel has been PLATED OUT by a fair working trial made by Mr H. Kelly, at his saw mill, and the public can see what he says as to the capacity of the two wheels in the following testimonial over his own signature:

Mr. H. W. Shipley—*Sir:* In reply to your inquiry as to how I like you Pacific Turbine Wheel, I have to say that I have used one over-shot and three Leffel wheels—10, 13 and 15 inch diameters. When I substituted your 15-inch wheel for the 13 inch Leffell wheel, though unfinished, it worked the machinery like a top, using 52 ft of water per minute more than the 13-inch Leffell. At your request I subsequently took your wheel out that it might be finished, and then I put in a 15 inch Leffel; but it gave no better power than yours while it used 52 cubic feet more water, per minute. After some months, I replaced your wheel and am still using it with the most satisfactory results. I have subjected it to some severe tests. For instance: while running the circular saw in a log which squared 15 inches, I added the planer with a 9-inch knife, cutting from one-eighth to one-fourth of an inch depth, without in the least slacking the speed. After thorough tests of both wheels, I am satisfied that your wheel with gates one-eighth of an inch open gives as much power as the Leffell with gates one-third open. At half gate, your wheel gives double the power of the Leffel at half gate. At full gate, the power of yours exceeds that of the Leffel, by from ten to twelve per cent. At quarter gate, the Leffel holds no comparison with yours at quarter gate.

N. B. Mr. Shipley was not present at either of the trials of his wheel, he being sick at the first, and absent from the State, at the second trial.

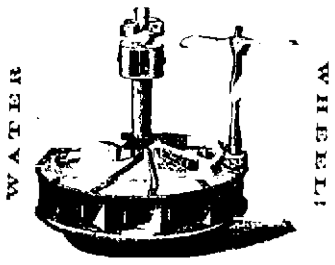
LEFFEL'S
AMERICAN DOUBLE TURBINE



These wheels, unequalled and unrivalled in the United States or the world, have been fully tested on this coast, many being in use at this date, driving all kinds of machinery, Saw Mills, Flour Mills, Quartz Mills, Woolen Factories, &c., &c.

The following is from the Springfield Republic:

Trial of Water Wheels.

Messrs Jonathan Child and John A. McCreight, who are about establishing mills and factories at Harper's Ferry, Va., wished to procure water wheels, and desiring to make a choice of Springfield Wheels, procured a trial between the Leffel Double Turbine and the Welch and Burns Wheel. The following report of the Committee shows the result of the trial:

Springfield, O., Oct. 11, 1867.

This is to certify, that on the 9th and 10th days of October, 1867, I, in company with Mr. Staley, Civil Engineer, of Mechanicsburg, carefully measured the amount of water used in the test between the 10 inch Leffel Turbine and the 10 inch Welch & Burns Water wheels, made by Bechtle, Blakeney & Baker, made at Weimer's mill, near West Milton, Miami Co., O. The contract requiring the tests to be made with ½ gates and ¾ gates, with the same amount of water for each wheel. The amount of grinding was superintended by Mr. Charles Morgan, who will report the results.

The amount of water used in the tests, as measured by myself and Mr. Staley, is as follows:

	C. ft. per min.
At ½ gate the Leffel Wheel used	88.224
" " Welch & Burns used	88.224
At ¾ gate the Leffel Wheel used	117.628
" " Welch & Burns used	117.628

The grinding was continued for one hour each test.

WILLIAM BROWN,
Civil Engineer.
S. S. STALEY.

Having been chosen by both parties to determine the amount of grain ground by each of the above mentioned wheels, the result was as follows:

The Leffel Wheel at ½ gate ground	256 lbs
The Welch & Burns at ½ gate ground	50½ lbs
The Leffel Wheel at ¾ gate ground	411½ lbs
The Welch & Burns at ¾ gate ground	192 lbs

CHARLES MORGAN.

An *Enterprising* firm of this city have imported a few of the above Cheap, Plated-out Wheels. "They GUARANTEE THEM EQUAL TO THE LEFFEL, OR NO PAY."

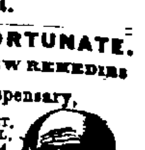
Medical.

TO THE UNFORTUNATE.
NEW REMEDIES, NEW REMEDIES
Dr. Gibbon's Dispensary,



616 KEARNEY STREET, NEAR COMMERCIAL, San Francisco. Established in 1854, for the treatment of Sexual and Seminal Diseases, such as Gonorrhoea, Gleet, Stricture, Syphilis in all its forms, Seminal Weakness, Impotency, etc. Skin Diseases (of years standing) and Ulcerated Legs successfully treated.

Horrible Diseases.

How many thousands of persons, both male and female, are there who are suffering out a miserable existence from the effects of secret indulgence, or from virus absorbed into the system! Look at their pallid, sunken and disfigured faces and their broken-down constitutions, disqualifying them for the happiness of [illegible] or the enjoyment of life. In this horrid situation thousands suffer until death closes the scene. Let parents, guardians, friends, attend to these who are suffering with any of these horrible life-destroying maladies that they are cared for and cured before it be too late. Send them immediately to Doctor Gibbon, a physician who has made private disease his especial study for years, and who is certain to cure the most inveterate cases without mercury or any injurious drugs. It is important to those who are afflicted, or to those who are interested in the welfare of their friends, to be careful of the many pretended doctors who infest all cities, publishing their skill in curing all diseases in a few days, imposing upon the public by using the names of eminent physicians from Europe and other places. Be therefore careful and make strict inquiry, or you may fall into the hands of these charlatans.

Seminal Weakness.

Seminal Emissions, the consequence of self-abuse. This solitary vice, or depraved sexual indulgence, is practiced by the youth of both sexes to an almost unlimited extent, producing, with unerring certainty, the following train of morbid symptoms, unless combatted by scientific medical measures, viz: Sallow countenance, dark spots under the eyes, pain in the head, ringing in the ears, noise like the rustling of leaves and rattling of chariots, uneasiness about the loins, weakness of the limbs, confused vision, blunted intellect, loss of confidence, diffidence in approaching strangers, a dislike to form new acquaintances, a disposition to shun society, loss of memory, hectic flushes; pimples and various eruptions about the face, furred tongue, fetid breath, coughs, consumption, night sweats, monomania and frequent insanity. If relief be not obtained, should apply immediately, either in person or by letter, and have a cure effected by his new and scientific mode of treating this disease, which never fails of effecting a quick and radical cure. Dr. G. will give One Hundred Dollars to any person who will prove satisfactorily to him that he was cured of this complaint by either of the San Francisco quacks.

MARRIED MEN,

Or those who contemplate marriage, who are [illegible] under any of these fearful maladies, should not [illegible] the sacred responsibility resting upon them any delay to obtain immediate relief.

DOCTOR GIBBON is responsible, and will give to each patient a written instrument, binding himself to effect a radical and permanent cure, or make no charge.

CURED AT HOME.

Persons at a distance may be CURED AT HOME, by addressing a letter to Dr. Gibbon, stating case, symptoms, length of time the disease has continued, and have medicines promptly forwarded, free from damage and curiosity, to any part of the country, with full and plain directions for use, for Ten Dollars, sent in registered letter or through Wells, Fargo & Co.

Caution to the Unfortunate.

Beware of the San Francisco quacks and pretenders, who, with bogus certificates, [illegible]. Some of the self styled doctors, whose names are to be found in the daily and weekly newspapers of San Francisco and other places, are tradesmen, and being too lazy to work at their trades. Some are shoemakers, newspaper carriers, intelligence office keepers, etc. Look over the San Francisco Directory, and you will not find their Medical Institutes in it, but you will find their former occupations in it. Look at the Directory for 1862 and 1863. The only way to avoid deception is to make enquiry—it will cost you nothing, and may save you many regrets; for, as advertising physicians, in eight cases out of ten, are bogus, there is no safety in trusting any of them until you know who and what they are. Dr. Gibbon does not deceive people by exhibiting bogus letters, certificates, pretended patient's letters, etc. Dr. Gibbon will satisfy persons who may call at his office of his ability to treat diseases that he proposes to cure.
